

MINUTES OF FACULTY MEETING

MARCH 22, 1971

Present: Sluss (Moderator), Webb (Recorder), Crowe, White, Wiedemann, Eickstaedt, Barnard, Humphreys, Young, Aldridge, Jones, Unsoeld, Hitchens, Alexander, Cadwallader, Humphrey, Teske, Donohue, Barry, Carnahan, Holly, Long.

1. Jim Long asked for faculty participation in presenting "academic life" views of TESC to local churches on Evergreen Sundays to aid communication with Thurston County Cooperative Campus Ministry efforts. Long and Webb will circulate memos to faculty describing the nature and extent of TESC involvement so far, to keep the college's approach to this group consistent.
2. SELF-PACED LEARNING: Humphrey will circulate request to faculty for 1971-72 top priority program needs; orders are due by May 1st (although certain categories of equipment can be delayed until next year). Barry indicated that SPL needs could be identified through dry runs on programs this Spring and should be routed directly from school to desk. Carnahan will work directly with schools and individuals on SPL needs.
3. FACULTY RECRUITMENT - Cadwallader: the boards in the seminar room of #213 is up to date. Further active recruiting will depend on number of students admitted and state funding projection. Humphrey requested critiques from faculty on our past interviewing procedures. Informal "reception" of visiting faculty will continue. Teske indicated a new routing mechanism for new candidate inquiries and requested candidate slates for 1972 from faculty for 1972 by July. The employment of faculty wives as part of a "community resource" to meet instructional needs was mentioned. Brian indicated that 700 students have been admitted; approximately 200 have paid the deposit. Jones pointed out that the faculty had earlier expressed the need for more psychologists than have been hired and asked the faculty to either reaffirm or disconfirm this need.
4. FACULTY LIAISON WITH PROVOST: Barry indicated the need for faculty input to inter-institutional committees relating to TESC academic programs channeled through his office, to prevent duplication of effort (as in the case of the CHE request for TESC representation) and facilitate communication. Barry will work with Faculty Moderator in determining mechanisms for faculty representation of TESC.
5. NEW BUSINESS: Barnard is chosen as new Faculty Moderator, to begin duties this week.

ADJOURNED.
