

DRAFT DRAFT DRAFT DRAFT DRAFT DRAFT DRAFT

Sustainable Evergreen DTF

Mission:

The Sustainable Evergreen DTF will:

1. **Audit the current impact of The Evergreen State College on the environment** in the following areas: food services, waste production, energy use/efficiency, transportation, grounds maintenance, investment, and procurement policy, *water*
2. **Recommend policy changes** to the college in the following ways:
 - a: Produce an **advisory document of findings and recommendations** to the college administration.
 - b: Produce a **pamphlet for general availability** highlighting ways that individuals can help move towards sustainability at Evergreen.

Method:

1. Task groups of Evergreen faculty, administration, and students will develop and execute audits of the various areas. They will then publish their findings.
2. The same task groups will recommend policy changes in the same areas as their prior research. These findings will be published.

Timeline:

Audit: Winter Quarter 1992-93

Policy Recommendations: Spring Quarter 1993

Document Development/Publishing: Spring Quarter 1993
