Minutes of the Environmental Advisory Committee

Meeting of May 5, 1976

Committee members present:

Ann Alderson (chairperson), Doug Luckerman, Bill Kennedy, Frank Motley

Others present:

Mike Ross

The meeting opened with the resignation of the present chairperson Ann Alderson, her reasons being that of conflicting obligations and heavy work load.

None of the members who filled the criteria of chairperson would accept the position. Doug Luckerman, new committee member then volunteered to take position and was nominated to succeed Ann.

Mike Ross, who works at central receiving, was then nominated to fill the empty staff position.

The decision to turn down the primary site of the proposed ropes course was confirmed, and an environmental impact study was suggested to be completed on the secondary site.

The replanting of the sections near Evergreen Pkwy. that were disturbed by the construction of curbs, was approved.

It was decided that no environmental impact study was needed for the proposed landscaping project northwest of the Seminar building. However, the committee decided that it would like to be presented with information about the types of foliage to be used and the projected maintenance they will require.

The next meeting of the EAC will be on May 19 at 9:30 a.m. in room 3119 in the library. It is important that all members are present.

Minutes prepared by Doug Luckerman (Beginning Typist)
