

WATERBODY	COUNTY/CITY LOCATION	ACRES APPROVED	CHEMICAL(S) APPROVED	SPECIFIC CONDITIONS
7. Bonney Lake	Bonney Lake, Pierce County	9 acres for aquatic plant control. Treatment approved for algae control.	Glyphosate (Rodeo) Fluridone (Sonar) Copper Compounds Endothol (Aquatrol)	In a letter dated March 3, 1995, Ecology requested submittal of current copper sampling data. Ecology does not have any record of receiving this data. Prior to any copper treatment, you must provide us with the current copper data. If you have data taken after March 3, 1995, please submit this information as soon as possible so that we can determine if additional sampling will be required.
8. Island Lake	Mason County	110 acres for Eurasian Milfoil control	Fluridone (Sonar)	
9. Lake Lawrence	Thurston County	5 acres for treatment of White Water Lilies.	Glyphosate (Rodeo)	
10. Ken (Simmons) Lake	Olympia, Thurston County	10 acres for aquatic plant control. .5 acres for cattail and lily control.	Glyphosate (Rodeo) Endothall (Aquatrol) Copper Compounds	<p>a. Immediately notify Debbie Carnevali, Washington Department of Fish &amp; Wildlife (WDFW), at (360) 264-5148, at least seventy-two (72) hours prior to treatment and send a written record of the telephone conversation to Ecology immediately upon request (i.e., person spoken to, date and time of call, and date and place of planned application).</p> <p>b. In order to comply with Condition S.4.2.a.3 of this Order, you will need to sample the lake sediments prior to any copper treatment.</p>
