

- G-8 A. The applicator shall keep complete application records on the approved spray report form provided in Appendix "A." This form will also fulfill the Department of Agriculture's reporting requirements. This form must be submitted to the appropriate Ecology Regional Office no later than November 1st of the same year the herbicides were applied.
- B. These application records shall be completed and available to Ecology the same day the herbicide(s) were applied and be mailed or hand delivered to Ecology immediately upon request.
- G-9 During all pesticide applications, the applicator, or persons applying pesticides, shall possess, on-site, this Order.

PUBLIC NOTICE PROCEDURES

P-1 Residential and Business Notice Procedures:

- A. The applicator shall complete copies of the Herbicide Application - Residential and Business Notice form provided in Appendix "B." These forms shall be sent to all residences and businesses within one-quarter (¼) mile in each direction along the shore and five-hundred (500) feet upland of the areas to be treated. Residential and Business Notice, a copy and the date of distribution of the notice shall be mailed or faxed to the Ecology contact identified in G-3 A immediately upon request.
- B. Notification shall take place five (5) to twenty-one (21) days prior to initial treatment. When planning copper treatments for algae, if less than thirty (30) days remain between the date of the issuance of the permit and the date planned for initial treatment, notification shall take place one (1) to twenty-one (21) days prior to initial treatment.
- C. If the Herbicide Application - Residential and Business Notice explains the application schedule for the whole season, and there is no significant deviation from that plan, no further Herbicide Application - Residential and Business Notice [as required under P-1 (A)] will be required for the rest of the season (unless a resident or business specifically requests further notification).
- If the location(s) to be treated change by over one-hundred (100) feet, or the date of the treatment extends five (5) days before or after the dates set for treatment, or different pesticide(s) are proposed for use, another Herbicide Application - Residential and Business Notice shall be issued. The use of copper compounds to control algae shall be exempt from this requirement.
- D. The one-quarter (¼) mile zone of notification discussed in P-1 (A) shall be expanded for the use of glyphosate (Rodeo®). In this case, the applicator shall notify all residences and businesses within one-half (½) mile in each direction along the shore and five-hundred (500) feet upland of the treatment area.
- E. Distribution of the Herbicide Application - Residential and Business Notice may be done by mail to residences or businesses, or by handbills given directly to the residences or businesses. If hand bills are used, the applicator shall secure the notices to the residences or businesses doorknob in a fashion that will hold them in place but will not damage
