# GENERALIZED STRATIGRAPHIC COLUMN

(nts)

QvR, Vashon Recessional Outwash

- Sand and gravel with some silty, clayey lenses
- Medium to high permeability

#### QvT, Vashon Till

- Hard, compact gravelly clay
- Low permeability

## QvA, Vashon Advance Outwash

- Sand and gravel with occasional silt and clay lenses
- Medium to high permeability

## **Qss, Salmon Springs Drift**

- Stratified sand and gravel, oxidation staining is common
- High permeability

#### Basalt Bedrock

Low permeability
