

Student Originated Software – Fall 2003

Week 1 Assignments

September 29 – October 3

Monday:

First day of class; no homework was assigned for this day,
but the OOAD EU-Bid workshop assignment is due at the end of the afternoon class.

Tuesday:

Carefully read the handouts you were given on Monday and come to class with questions.

Wednesday:

OOP Tentative: Read Budd, Chapters 1 – 3. See OOP syllabus.

OOAD Read Chapters 1, 2 & 4 in *Using UML*

Carefully read the handouts you were given Monday and Tuesday; come to class with questions.

Thursday:

Seminar Brooks' *Mythical Man Month*, Ch. 1-6.
"The New X-Men" in September 2003 *Wired*. Also at
<http://www.wired.com/wired/archive/11.09/xmen.html>

Bring your revised writing on personal characteristics that you did earlier in the week.
Also, write an assessment of your writing skills and your objectives for improvements for
this quarter and bring this to class. (one page max)

Bring your signed covenant.

OOAD Case Study Assignment 1 – System Vision; due at 5 pm.

Monday October 6 is Yom Kippur.

Please let Sherri or Judy know if you will be absent and you feel awkward missing the
OOAD Lecture and Workshop.

We may meet as usual Monday, but will not have OOP lecture that day, substituting more
OOAD lecture and workshop time. The OOP lecture time will be made up during the week
when Judy is away at a meeting (November 3-5).
