

Student Originated Software – Fall 2003
Week 2 Assignments
October 6 - 10

Monday:

Yom Kippur. No OOP due. Class as usual 10-12, and 1-3.

Tuesday:

See OOP Syllabus

Project Champions – bring project written vision and be prepared to talk about it.

Wednesday:

OOP See OOP syllabus.

OOAD Read Chapters 3, 5, 6 in *Using UML*.
Ch. 6 contains some advanced material;
you will only be responsible for topics covered in the lectures.
Carefully read Monday's handouts; come to class with questions.

If you haven't already, bring a revised writing on personal characteristics that you did early in week 1, and the assessment of your writing skills and your objectives for improvements for this quarter. (one paragraph on each is fine; page max for each)

Thursday:

Seminar Brooks' *Mythical Man Month*, Ch. 7-15.
Hand in a signed "covenant agreement" (this will be handed out Wednesday).

OOAD Case Study Assignment 2 – Glossary and Domain Model; due at 5 pm.
Please "word process" or use Rose on the OOAD assignments, i.e., don't hand in hand-written assignments....

Monday October 13.

Programming assignment due.
