

Classroom Observation/Participation Contract
Arts, Environment & the Child
The Evergreen State College
Fall 2005

Each student enrolled in the program, Arts, Environment & the Child, is required to carry out 49 hours of project work during fall quarter. As a portion of this project work, students are expected to initiate contact with a school and classroom teacher in order to observe students on a weekly basis for four weeks, develop a lesson plan/activity that is age appropriate and that links with the other aspects of their project work which relate either to seasonal celebrations or to plants & gardens, and carry out this lesson/activity. Contracts signed by both the student and classroom teacher need to be returned to faculty by Wednesday, 19 October.

The classroom teacher will be asked to orient the student to his/her classroom, give the student guidelines for observation and interaction, assess the student's lesson/activity plan, enable the student to carry out the lesson/activity, and write a one-paragraph evaluation of the student's work that must be received by the faculty no later than Wednesday, 16 November. Evaluations may be sent to:
