Project Area (Select First & Second Choice)

Please mark 1 or 2 in front of each group to indicate your first and second choice. Then, please indicate your top two or three areas of interest within each group. If you have a strong desire to participate in something in particular, please explain your reason. Also, please make it clear if you wish to participate in only one primary project area or if you would like to have a secondary project "helping role." We will do our best to place students in the project areas they are most interested in. However, please understand that, because there are so many variables involved (projects in need of students, coordinating schedules, etc.) you may not receive your first choice.
