

Thinking Straight Information Sheet

Name:
ID#

First Year 1st, 2nd, 3rd, 4th year (circle)

Age: Gender: M or F: (circle)

___ Phone at which you can be reached: _____

___ E-mail address you regularly check: _____

What were you doing last quarter? specify _____

What are your areas of special academic interest?

What Evergreen programs have you taken -- titles and years?

Why did you choose this program? (Use the back if necessary)

How well prepared do you feel for the program: (low) 1 2 3 4 5 mixed : (explain what you see as your areas of strength and weakness—use the back if necessary)

Is there anything else faculty should know about you? (Use the back if necessary)

Statistics Background

Have you studied statistics or statistical reasoning before in high school or college? (circle) Yes No

If so, indicate your familiarity with the following topics by checking the appropriate box for each one.

Topic	Did not Study	Can't Remember	Studied, but now hazy	Understand fairly well	Understand well
measures of central tendency (mean, median, mode)					
standard deviation, variance					
graphing (histogram)					
normal curve					
types of sampling					
determining sample size					
experimental design					
correlation					
regression (Regression Line)					
probability					
statistical Inference					
chi-squared					
t-test					
analysis of variance					
use of Excel to calculate statistics					

List any additional, statistical topics you might have covered that are not in the table.
