

Atoms, Molecules, and Reactions 2011-12

Textbook list

	<p>Inorganic Chemistry, 4th Edition by Donald A. Tarr, Gary L. Miessler Prentice Hall Publishers, copyright 2011 ISBN-10: 0136128661 ISBN-13: 9780136128663</p>
	<p>Physical Chemistry, 4th Edition <u>Robert J. Silbey</u> (Massachusetts Institute of Technology), <u>Robert A. Alberty</u> (Massachusetts Institute of Technology), <u>Mounqi G. Bawendi</u> (Massachusetts Institute of Technology) Published by John Wiley and Sons copyright July 2004, ©2005 ISBN 978-0-471-21504-2</p>
	<p>Principles of Instrumental Analysis, 6th Edition By Douglas A. Skoog; F. James Holler; Stanley R. Crouch Brooks/Cole Publishers, Copyright 2006 ISBN: 0495012017 / <u>9780495012016</u></p> <p>An older edition of this text (4th edition or higher) is acceptable.</p>
	<p>You need to have access to a molecular model kit. If you are looking to purchase I recommend http://www.cochranes.co.uk/show_category.asp?id=43 [Orbit Organic and Inorganic Individual Set]</p>
	<p>You will need a lab notebook if you are taking the program for 16 credits</p>
