RE: The Mace

This is (hopefully) my only moment of written paranoia about getting the ceremonial mace installed and dedicated. I'd like Byron to generally coordinate activities. The date of the dedication will be January 16, 3:30 p.m. Walker will have the microfiche of the 1983 Graduation Committee's page. Jon will make sure the mace and its case are installed during the week of January 9. The case and mace are in my office (Academic Advising - Library 1221). I will be away from campus December 14 - January 3.

Thanks to you all.

Earle
