Dear Thurston County Residents,

Spring in the southern Puget Sound invites renewed interest in the world around us. More hours of daylight, warmer days and evenings, rhododendrons and rhododendron in bloom and other springtime events signal us to explore outdoor environs and to take part in activities often abandoned during rainy winter months.

Spring at Evergreen also offers renewed opportunities in educational and personal growth. The challenge to fulfill our own individual plans and dreams seems all the more possible through Spring academic offerings, many of which take students into the Springtime northwest outdoor world.

This Spring Quarter will bring Evergreen's full-time faculty, 15 adjunct (part-time) instructors, and students together in a new season of learning. New courses and programs provide an appropriate freshness to familiar offerings, just as Evergreen's new facilities and features continue to expand those already available in fostering the learning process.

These challenges and opportunities, available at The Evergreen State College, are described in this Evergreen Swingshift brochure for Spring Quarter 1978. I look forward to welcoming you to the Evergreen campus for Spring studies.

Sincerely,

[Signature]

FUNDAMENTALS OF MICROPROCESSOR PROGRAMMING

Grady Ward, Adjunct Member of the Faculty (Computer Services staff), 866-6263.

Monday and Wednesday, 7:30-9:30 p.m., Library 2407.

A seminar and workshop, this course will cover in detail software design and implementation for the 8080A microprocessor. Focus of study will be assembly language for stack machines.

Prerequisites: Programming experience in any language.

Class size limit: 24.

INTRODUCTION TO COMPUTER PROGRAMMING

John Munro, Adjunct Member of the Faculty (Evergreen systems analyst), 866-6232.

Tuesday and Thursday, 3:30-5:30 p.m., Library 2503.

Featured in this course will be fundamental concepts of computing and use of problem solving tools, such as flowcharts and Warnier charts. Students will gain skills in "BASIC" programming language using the Hewlett-Packard 2000C timesharing computer and programming for both business and scientific applications.

Prerequisites: None.

Class size limit: 20.

PROGRAMMING TECHNIQUES

Dale Baird, Adjunct Member of the Faculty (Evergreen systems analyst), 866-6232.

Tuesday and Thursday, 4-6 p.m., Library 2406.

The primary objective of this course is to develop skills in designing readable computer programs. Topics to be covered include structure programming, documentation testing, and debugging. Students will use Evergreen's Hewlett-Packard 2000C timesharing system.

Prerequisites: Introduction to Basic Programming (or equivalent), and instructor's signature.

Class size limit: 15.

SYSTEM DESIGN FOR MICROCOMPUTER APPLICATIONS

John Munro, Adjunct Member of the Faculty (Computer Services staff), 866-6232.

Monday and Wednesday, 3:30-5:30 p.m., Library 1903.

Students in this course will analyze and design microcomputer systems such as test processing, financial, real estate, business, environmental monitoring and control, and other applications.

Prerequisites: Instructor's signature.

Class size limit: 24.

Expressive Arts

Daytime

THE ARTS AND THE EDUCATOR

Jeanne Royer, Visiting Member of the Faculty, Early Childhood Development.

Monday and Wednesday, 4:6 p.m., location to be announced.

An exploration of creativity through art forms, this course is specifically designed for persons who work with children and feel they have lost touch with their own creative powers or that they are stifled in their presentation of artistic media (visual, tactile, music and movement) to children. There will be a small fee for materials.

Prerequisites: None.

Class size limit: 15.

BASIC TELEVISION SKILLS

Class Davies, Adjunct Member of the Faculty (Evergreen electronic media producer), 866-6270.

Tuesday and Friday, 8:30-10:30 a.m., Media Services, Library 1236.

Course focuses on proper and effective use of video equipment and systems, as well as basic television production techniques. Additional credit is available for small-scale production projects. Costs for videotaping are $13 per half hour.

Prerequisites: Instructor's signature.

Class size limit: 14.

CONTRAPUNTAL FORMS, FUGUE WRITING & ANALYSIS

Dr. Robert Gottlieb, Member of the Faculty (Music), 866-6385.

Monday and Thursday, 3:45-5:45 p.m., Library 2101.

This course continues Winter Quarter's Counterpoint course, this time emphasizing the study and analysis of the contrapuntal forms such as fugue, chorale forms, and such variation in forms as passacaglia, chaconne and others.

Prerequisites: First year harmony.

Class size limit: 24.

EVERGREEN SINGERS

Dr. Wayne Hertz, Adjunct Member of the Faculty (Music), 866-6290.

Monday, Wednesday and Thursday, 4-5 p.m., Choral Room, Communications Building.

A variety of music from Renaissance to contemporary times will be performed by those who join the Evergreen Singers. Members of the Olympic community are encouraged to join the group.

Prerequisites: None.

Class size limit: None.

IMAGE MAKING: DRAWING

Susan Aurand, Member of the Faculty (Art), 866-6385.

Tuesday, 1-5 p.m., Laboratory I 1046.

An introduction to image making through drawing and other processes (xerox, dynotype, and others), this course will emphasize the development of drawing as a "personal language." Students should expect to spend up to $35 for materials.

Prerequisites: None.

Class size limit: 15.

INTERMEDIATE BALLET

Bernard Johansen, Member of the Faculty (Dance), 866-6096, 866-6130.

Tuesday, Tuesday, Wednesday, Thursday, 12:1-30 p.m., College Recreation Center 307.

Course focuses on intensive study of ballet barre and center techniques, along with introduction of point techniques. Evaluation will be on personal advancement.

Prerequisites: Audition; two to three years' training in ballet.

Class size limit: 20.

JAZZ ENSEMBLE

Donald Chan, Member of the Faculty (Music), 866-6070.

Tuesday, Wednesday, Thursday, 4:30-6:30 p.m., Communications Building 110.

Course will feature performance ensemble and a study of music by Stan Kenton, Count Basie, Woody Herman, Maynard Ferguson and others.

Prerequisites: Audition.

Class size limit: 24.

MODERN DANCE: IMPROVISATION

Margot Hunt, Member of the Faculty (Dance), 866-6013, 866-6385.

Tuesday and Thursday, 4:30-5:30 p.m., Communications Building 210.

The emphasis of this course is on dance improvisation, with modern dance technique used as a background and a warm up to developing improvised forms.

Prerequisites: One term (or equivalent) of modern dance technique.

Class size limit: 24.

MODERN DANCE THROUGH EFFORT/SHAPE ANALYSIS

Pam Schick, Visiting Member of the Faculty (Dance), 866-6075.

Monday and Wednesday, 4-6 p.m., Communications Building 307.

This introduction to modern dance will emphasize basic technique and the development of awareness about the elements of effort and shape. Students will spend equal hours of work outside class in practice.

Prerequisites: Instructor's signature.

Class size limit: 20.
MUSIC THEORY II (THIRD QUARTER)
Donald Chan, Member of the Faculty (Music), 866-6070. Labrador Monday and Wednesday, Noon-1 p.m.; Lecture: Tuesday and Thursday, Noon-1 p.m., Communications Building 117. A continuation of Music Theory I, this class includes the analysis, study, and writing of the function of chords. Also some composition and ear training are included. Prerequisites: None. Class size limit: 15.

POET'S PRESS
Rusty North, Adjunct Member of the Faculty (Printing), 866-6043. Tuesday and Wednesday, by arrangement, between 1 and 10 p.m., Evergreen Print Studio, Library 0034. This course in design and printing of broadsides or small books with hand-set letterpress type will give special attention to aesthetics of the printed word. Students will pay a $10 lab fee, not including the cost of paper. Prerequisites: None. Class size limit: 24.

SCENE DESIGN
Dannis Kochta, Adjunct Member of the Faculty (Evergreen stage technician), 866-6164. Monday and Wednesday, 3:30-5 p.m., Communications Building 310. Students who have acquired basic lighting and set construction principles will be required to submit complete designs of major productions during this course. This includes rendering, construction plans, and models. Theory will also be a part of this course. Prerequisites: One quarter of Stage Lighting or Stagecraft course. Class size limit: 24.

Evening

ACTING FUNDAMENTALS
Joan Klyn, Visiting Member of the Faculty (Theater Arts), 866-6085. Monday and Thursday, 7-9 p.m., Communications Building 209. This course is designed for students wishing to develop basic keyboard skills through exercises, improvisations, text and character analyses, and scene work. Prerequisites: None. Class size limit: 20.

AUDIO RECORDING TECHNIQUES
Ken Wilhelm, Adjunct Member of the Faculty (Evergreen Media Services staff), 866-6270. Wednesday, 6-9 p.m., Library 1308. An introduction to sound and audio recording techniques, through lecture, demonstration, and "hands-on" experience using Evergreen's Media Loan audio equipment and Mini-Studio facilities. Prerequisites: Portfolio and faculty signature. Class size limit: 12.

CLASS PIANO
Mary Jane Clark, Adjunct Member of the Faculty, 866-4587. Monday and Wednesday, 7:30-9 p.m., Communications Building 336. This class is designed for students wishing to develop basic keyboard skills through the study of piano technique, selected repertoire, harmonicization, transcription, and applied theory. Prerequisites: Interview with and signature of instructor. Class size limit: 16.

CLASS VOICE
Joan Wendon, Adjunct Member of the Faculty (Voice), 866-8075. Monday and Thursday, 7-9 and 7-9 p.m., Choral Music Room, Communications Building. Voice class will study primary vocal principles and will prepare small ensemble and solo presentations. Prerequisites: Signature of instructor. Class size limit: 24.

THE CULTURAL AWAKENING: RENAISSANCE ART
Dr. Gordon Beck, Member of the Faculty (Cinema Arts), 866-6059. Thursday, 7-10 p.m., Library 2129. Through lectures and slides, students will learn about the painting, sculpture, and architecture of the Renaissance in Italy from its origins in the Thirteenth Century until the death of Titian in 1580. Course is especially recommended for students taking the Museums and Monuments program. Prerequisites: None. Class size limit: 20.

DICKENS AND THE ART OF DESCRIPTION
Sandra Simon, Member of the Faculty (English), 866-6089, 866-6130. Tuesday, 7-10 p.m., Library 1307. Students will use the reading of Dickens' novels to examine the various ways writers may cast characters against a setting. Prerequisites: None. Class size limit: 24.

FREEHAND DRAWING
Dr. Rainer Hessenstab, Member of the Faculty (Environmental Design), 866-6097, 866-6365. Tuesday, 7-9:30 p.m., Laboratory II 2233. An introduction to freehand drawing, this course uses a series of progressive life drawing exercises in simple line representation with pencil and newpaper. Students will use the text Freehand Drawing by Thiel and will be required to spend $5 for light weight drawing board and materials. Prerequisites: None. Class size limit: 24.

HISTORY OF BLACK MUSIC
Dr. LaRoi Smith, Member of the Faculty (Psychology), 866-6729. Wednesday, 7-9:30 p.m., Communications Building 310. This course will examine the development of popular black music from its origins in Africa through its present form as the cornerstone of popular American music. Historically, the period of primary concentration will be 1920-1966. Prerequisites: None. Class size limit: 40.

MUSIC FUNDAMENTALS
Victor Saucedo, Visiting Member of the Faculty (Music), 866-6077, 866-6130. Monday and Thursday, 5:30-7 p.m., Communications Building 320. This class will stress three basic aspects of musicianship: 1) Theory (scales, key signatures, rhythm, interval classification and triads), 2) Manhattan, and 3) aural recognition of the above mentioned. Students will have daily assignments. Prerequisites: None. Class size limit: 24.

FOTOGRAFHY
Craig Hickman, Adjunct Member of the Faculty (Photography), 866-6270. Tuesday, 5:30-10 p.m., Evergreen Photo Center, Library 1340. This photography course will emphasize the aesthetic and technical aspects of photography so it can be used as a medium of self-expression. Prerequisites: Basic darkroom skills and signature of instructor. Class size limit: 20.

Human Development

Daytime

ADVANCED COLLEGE READING
Dr. E. Jackson Webb, Member of the Faculty (English), 866-6464. Monday and Thursday, 9:30-11 a.m., Library 3409. Students will improve their speed, comprehension, retention, and interpretation of non-fiction academic and business materials. Focus is on techniques of reading, note taking, skimming, and scanning. Ten hours of weekly practice required. Prerequisites: Instructor's signature. Class size limit: 12.

COLLEGE AND BUSINESS WRITING
Dr. E. Jackson Webb, Member of the Faculty (English), 866-6464. Monday and Thursday, Noon to 1:30 p.m., Library 3409. This class is designed for students wishing to develop basic keyboard skills through exercises, improvisations, text and character analyses, and scene work. Prerequisites: Signature of instructor. Class size limit: 20.

BETWEEN THE COVERS
Susan Smith, Adjunct Member of the Faculty (Evergreen Coordinator of Library User Services) and Frank Motley, Adjunct Member of the Faculty (Evergreen Director of Library Reference Services), both at 866-6250. Tuesday, 4-6 p.m. and independent work 8-10 hours per week, Library Reference Area. This course provides a working knowledge of library reference materials. It will enable students to effectively search for information in the natural sciences, arts, humanities and social sciences. Prerequisites: Signature of one instructor. Class size limit: 20.
**BEGINNING SPANISH (THIRD QUARTER)**

Dr. Peta Henderson, Member of the Faculty (Anthropology), 866-6260.
Monday and Thursday, 6:30-8 p.m., Seminar Building 3126.

Students will explore the social, political and economic determinants of family type in tribal, peasant and modern urban settings using ethnographies and fiction as study materials. Note: Students who have taken a Winter Quarter course (1976-77) or who plan to take Social Structure, Family Life and Female Roles (1978-79) should not take Anthropology: Evolution of the Family.

Prerequisites: None.
Class size limit: 24.

**RATIONAL VS. INTUITIVE KNOWING**

Edward McQuarrie, Adjunct Member of the Faculty (Psychology), 866-6260.
Monday, 6-8:30 p.m., Library 2129.

Students will investigate the implications of split-brain research for an understanding of the alternatives to rational thought. A wide range of alternatives will be discussed in class, and students will each select one to practice as a project.

Prerequisites: Instructor's signature.
Class size limit: 20.

**TECHNIQUES IN THE DEVELOPMENT AND WRITING OF LIFE HISTORIES**

Lynn Patterson, Member of the Faculty (Anthropology), 866-6118.
Monday, 7-10 p.m., Library 2204.

This course will introduce techniques useful in the construction of life histories. Students will be required to produce weekly projects, to include the use of family photo albums, home movies and recipe files.

Prerequisites: None.
Class size limit: None.

**WOMEN IN AMERICA**

Stephanie Coontz, Member of the Faculty (History and Women's Studies), 866-6801.
Wednesday, 7-10 p.m., Library 1612.

Women in America will survey women's roles and images in America from colonial times to the present. Lectures will be followed by class discussion.

Prerequisites: None.
Class size limit: 24.

**BEGINNING STATISTICS**

Dr. Thomas B. Rainey, Member of the Faculty (History), 866-6574.
Monday and Wednesday, 5:30-7 p.m., Library 2506.

Using detective novels as the basic model, students will explore the discipline of logical thought. This course will be especially valuable for people with career interests in the natural and social sciences.

Prerequisites: None.
Class size limit: None.

**GERMAN I**

Lydia Garrett, Adjunct Member of the Faculty, 866-6260 or 491-6836.
By studying literature and grammar, students will learn to use German correctly and idiomatically for reading, writing and conversing.

Prerequisites: Winter Quarter course or instructor's consent.
Class size limit: 18.

**CHEMISTRY**

Dr. George Dimitroff, Member of the Faculty (Mathematics), 866-6701.
Monday and Thursday, 7:30-9:30 p.m., Library 2208.

Students will learn the basic ideas of sampling, descriptive, and inferential statistics. The material learned in this course will be appropriate for use in mathematics and other disciplines.

Prerequisites: None.
Class size limit: 24.

**FRENCH I (THIRD QUARTER)**

Ann Henderson, Adjunct Member of the Faculty (Language), 866-6290.
Tuesday and Thursday, 3-5 p.m., Seminar Building 3153.

French literature and grammar will serve as the main tools for students in this course, intended to develop conversational skills and fluency in French.

Prerequisites: Two quarters of French I or equivalent.
Class size limit: 16.

**SPANISH II (THIRD QUARTER)**

Maria Theresa Rosem, Adjunct Member of the Faculty (Language), 866-6290.
Tuesday and Thursday, 3-5 p.m., Library 2208.

The goal of this course is to achieve fluency in spoken Spanish. Study will focus on literature and grammar in order to develop conversational skills.

Prerequisites: Five quarters of college Spanish or equivalent.
Class size limit: 14.

**LEARNING STUDIES**

**Daytime**

BEGINNING SPANISH (THIRD QUARTER)

Nancy Allen, Member of the Faculty (Literature and Languages), 866-6654.
Monday, Tuesday and Thursday, 3:30-5 p.m., Seminar 3157.

This is a beginning study of the Spanish language within the context of Latin American culture. Learning to speak correctly and fluently will be the primary aim of frequent drills.

Prerequisites: Two quarters of Spanish or equivalent.
Class size limit: 20.

BEGINNING SPANISH (THIRD QUARTER)

Nancy Allen, Member of the Faculty (Literature and Languages), 866-6654.
Monday, Tuesday and Thursday, 3:30-5 p.m., Seminar 3157.

This is a beginning study of the Spanish language within the context of Latin American culture. Learning to speak correctly and fluently will be the primary aim of frequent drills.

Prerequisites: Two quarters of Spanish or equivalent.
Class size limit: 20.
Executive Series

Evergreen offers the following courses for persons active or interested in executive and supervisory positions in either the public or private sector.

COMMUNICATIONS FOR THE EXECUTIVE

Dr. Niels Skov, Member of the Faculty (Oceanography and Management), 866-6631.

Time and place by arrangement.

The goal of this course is to develop effective communication skills for executives to use at inter-personal and organizational levels. Semantics, cultural value judgments, "frame of reference" concept, and process analysis are some of the topics included.

Prerequisites: None.

SOCIAL BACKGROUND OF OUR TECHNOLOGY

Dr. Mark L. Papworth, Member of the Faculty (Anthropology), 866-6722.

Time and place by arrangement.

This class reviews economic models from antiquity to present day, in its goal to provide the executive with an appreciation of people and events that shaped economic systems. A discussion of market society will be included.

Prerequisites: None.

BACKGROUND IN ECONOMICS

Dr. Niels Skov, Member of the Faculty (Oceanography and Management), 866-6631.

Time and place by arrangement.

This class reviews economic models from antiquity to present day, in its goal to provide the executive with an appreciation of people and events that shaped economic systems. A discussion of market society will be included.

Prerequisites: None.

INTERMEDIATE ACCOUNTING (PART III)

Ken Winkley, Adjunct Member of the Faculty (Evergreen Business Manager), 866-6450.

Wednesday, 7-10 p.m., Library 4004.

This is for students who have completed Introductory Accounting and want to continue the study of accounting theory, concepts, and practices. Attention is focused on the use of accounting as a basis for decision-making by management, stockholders and creditors.

Prerequisites: Introductory accounting.

Class size limit: 24.

ISSUES IN THE WORLD OF WORK

Dr. Russell Lidman, Member of the Faculty (Economics), 866-6086.

Tuesday, 6-8:30 p.m., and Thursday, 6-7 p.m., Library 4003.

This course will examine a number of important issues related to work, including public employee unions, trends in worker management, and occupational safety.

Prerequisites: None.

Class size limit: 24.

PRINCIPLES OF MARKETING

Evergreen staff, 866-6280.

Wednesday, 7-10 p.m., Library 2503.

This introductory course will address topics including the selection of target markets, the development of marketing mix, marketing information systems, and consumer behavior.

Prerequisites: None.

Class size limit: 24.

PUBLIC LAND MANAGEMENT

Pat Feeney, Adjunct Member of the Faculty (Law), 866-6290.

Thursday, 7-9:30 p.m., Library 2504.

An examination of the origins, development and disposition of the public lands, this course will emphasize changing attitudes toward public lands, with special attention to current issues facing public land managers, in view of demands by business, government, and conservationists.

Prerequisites: None.

Class size limit: 25.

Natural Science & Mathematics

Daytime

CONTEMPORARY HUMAN NUTRITION

Dr. Jeffrey Bland, Visiting Member of the Faculty (Chemistry), 866-6022.

Monday, 3-6 p.m., Lecture Hall Three.

This course will address the basic features of nutrition as it relates to proteins, fats, and carbohydrates; ingestion, and assimilation. The role of vitamins and minerals in establishing optimal physiological processes will also be explained.

Prerequisites: None.

Class size limit: 35.

MATH ANXIETY LAB

Dr. Josie Reed, Member of the Faculty (Mathematics/Spanish), and Dr. Kaye V. Ladd, Member of the Faculty (Inorganic Chemistry), 866-6031.

Monday and Wednesday, 3-5 p.m., Laboratory II 2203.

Designed for those who are intimidated by math, this course seeks to build confidence and skill in attacking and solving mathematical problems.

Prerequisites: None.

Class size limit: 20.

Evening

BEGINNING STATISTICS*

Dr. George Dimitroff, Member of the Faculty (Mathematics), 866-6701.

Monday and Thursday, 7:30-9:30 p.m., Library 2203.

Students will learn the basic ideas of sampling, descriptive, and inferential statistics. The material learned in this course will be appropriate to mathematics and other disciplines.

Prerequisites: None.

Class size limit: 24.

CALCULUS II

Dr. Al Leisenring, Member of the Faculty (Mathematics), 866-6724.

Tuesday and Thursday, 6:30-8 p.m., Lecture Hall Four.

This is a continuation of the Calculus I course and will be primarily devoted to the theory and application of integral calculus.

Prerequisites: Calculus I or its equivalent.

Class size limit: 35.

GENERAL MICROBIOLOGY

Dr. Burton Guttman, Member of the Faculty (Biology), 866-6721.

Tuesday, 7 p.m., Self-Paced Learning Units Center, Laboratory II 1223, for first meeting only. Thereafter students will work on their own in the SPLU Center.

This offers a standard introductory microbiology course covering structure, physiology, reproduction, identification, and ecology. Students are taught entirely through use of self-paced learning materials (readings, audio-visual aids and laboratory exercises).

Prerequisites: None, however, high school biology or chemistry recommended.

Class size limit: 24.
INTRODUCTORY CHEMISTRY
Dr. Will Wallace, Visiting Member of the Faculty (Chemistry and Oceanography), 866-6547.
Tuesday and Thursday, 7-8:30 p.m., Lecture Hall Two.
An introductory inorganic chemistry course, students will learn about bonding, energy, and environmental chemicals (both natural and man-made).
Prerequisites: None.
Class size limit: 24.

MINERAL OPTICS
Dr. James Stroh, Member of the Faculty (Geology), 866-6762.
Wednesday and Thursday, 7:30-10 p.m., Laboratory II 2205.
Course focuses on elementary principles of optical mineralogy and practical uses of the polarizing microscope. Identification of minerals and textures will be included. Cost of textbooks is approximately $35.
Prerequisites: Mineralogy and trigonometry; instructor's signature.
Class size limit: 10.

OCEANOGRAPHY
Dr. Will Wallace, Visiting Member of the Faculty (Chemistry and Oceanography), 866-6547.
Wednesday, 7-9:30 p.m., Lecture Hall Two.
The effects of human encroachment on the ocean environment will be a special emphasis in this course covering the geological, physical, chemical and biological aspects of the world hydrosphere.
Prerequisites: None.
Class size limit: 24.

Political Economy
Evening
NELSON TO NIMITZ: INFLUENCE OF SOCIETAL AND TECHNOLOGICAL CHANGE ON NAVAL WARFARE
Dr. Lowell Kuehn, Member of the Faculty (Sociology), 866-6773; and Les Eldridge, Adjunct Member of the Faculty (Evergreen Assistant to the President), 866-6363.
Monday, 6-9 p.m., Seminar Building 3151.
This course examines naval warfare between 1718-1815 and 1898-1945. Aspects for focus are the sail-to-steam transition, key engagements, common elements, changes in tactics, seamanship, and characteristics of societal change on leadership.
Prerequisites: None.
Class size limit: 24.

THE THOUGHTS OF MAO
Paul Marsh, Member of the Faculty (International Relations), 866-6082, 866-6600.
Tuesday, 7-10 p.m., Laboratory I 203B.
The principle focus of this advanced-level course is on Mao Tse-tung's major policy commitments between 1921 and 1966. Students will examine Mao's successes and failures and the attendant effects of these on the Chinese Communist Party. Written assignments will be due weekly.
Prerequisites: At least one year of social science study, preferably two.
Class size limit: 24.

Coordinated Studies
The following Coordinated Studies programs have part-time openings Spring Quarter. Nearly all academic work in Evergreen's Coordinated Studies programs occurs during daytime hours. If your schedule requires that you attend evening classes, you should look first at the courses described earlier in this brochure. If any of the programs listed here are of interest to you, and fit into your own schedule for attending class, you may wish to consult the 1977-78 Catalog Supplement before calling the indicated faculty member, the Admissions Office (866-6170), or Academic Advising (866-6312). The Supplement contains detailed descriptions of Coordinated Studies programs.

FORMATION OF MODERN SOCIETY
Betty Estes, Member of the Faculty (History of Science), 866-6632.
This program for 1977-78 treats the problems which have arisen while western consciousness was turning from the sacred to the secular, that is from focus on sacramental concerns to that of mechanical causes, numerical measurement, empirical rationality, and scientific method. In the process, such things as superstition, magic, the concept of earth as the center of the universe and humanity as its unique master race—these things seem to have passed away. But then so has a good deal of what we have meant to ourselves. Spring Quarter will study western works of art and thought from the nineteenth and twentieth centuries in an attempt to understand how the modern world has tried to deal with the predicaments created by the process of secularization. Part-time students will receive one Evergreen unit of credit.

LABOR AND THE PUBLIC INTEREST
Dr. Thomas R. Rainey, Member of the Faculty (History), 866-6385.
Part-time students will meet Tuesdays and Thursdays, with lecture from 6-7 p.m., and seminar from 7-9 p.m.
Labor and the Public Interest offers study designed for union members and leaders, people working in labor relations, and others interested in labor problems. Spring Quarter students will earn two Evergreen Units for completing all course readings, attending class lectures and seminars, and completing a take-home essay examination. Topics to be covered include labor-management relations, labor law, labor economics, public employee relations, and occupational diseases and hazards.
Group Contracts

The following Group Contracts have openings for Spring Quarter. Like Coordinated Studies programs, Group Contracts build on a single theme and employ the seminar-lecture technique in teaching. Group Contracts, however, usually involve only 25-45 students working with the two faculty members and are sometimes designed to meet the needs of a single group within the community.

DICKENS AND THE ART OF DESCRIPTION

Sandra Simon, Member of the Faculty (English), 866-6089.
This contract gives students an opportunity to read and discuss five of Dickens' novels (Bleak House, Hard Times, The Old Curiosity Shop, Our Mutual Friend, and Great Expectations) and try their own hand at emulating his ability to describe setting, character, and mood. Tuesday lectures will supply the critical framework for each novel, and Thursday workshops will emphasize writing techniques and critique. Each student will be expected to give one short oral presentation on some critical or biographical aspect of one novel. For students wishing to participate only in the Tuesday lecture-reading phase, one unit of credit will be available.
Prerequisites: None.

PHOENIX

Dr. Carolyn Dobbs, Member of the Faculty (Urban Planning and Women’s Studies), 866-6102, and Dr. Kaye V. Ladd, Member of the Faculty (Inorganic Chemistry), 866-6102.
Phoenix is a two-quarter part-time program for two Evergreen units, designed for women returning to or entering college for the first time. It places strong emphasis on building skills in critical thinking, writing, reading, seminaring (small group discussion), and research. The theme of Phoenix is the process of change, and during Spring Quarter students will investigate 1) social change as a deliberate process followed in planning and community organization, and 2) physical change that occurs in biological systems (including new ways of causing deliberate change through genetic manipulation). Each student will prepare a research paper presenting her definition of change and describing some kind of change that interests her. Readings will include Rules for Radicals, The Milagro Beanfield War, Double Helix, and Rosalind Franklin and her Discovery of DNA.
Prerequisites: None.

If You Want Something That Isn’t Offered

Tell us what it is: Evergreen is committed to serving the residents of Southwest Washington, particularly, of course, those who live in Thurston County. Each year we revise our curriculum to make sure it keeps pace with the rapidly changing world beyond our campus. If there are courses or full-time study programs you’d like to take at Evergreen that aren’t now offered, take a minute to fill out the form below and send it to:

Academic Dean Will Humphreys,
Library room 2219,
The Evergreen State College,
Olympia, WA 98505

WHAT I’D LIKE TO TAKE

I’m interested in courses or academic programs in the following areas:

NAME

ADDRESS
### Spring Quarter

Spring Quarter 1978 begins Wednesday, March 29 and ends Friday, June 9. Spring Quarter includes one holiday, May 29, in observance of Memorial Day. Advance registration for part-time studies Spring Quarter begins Wednesday, March 8, and continues weekdays through March 17. Registration resumes Wednesday, March 29 and ends Wednesday, April 5, the deadline for fee payments. See the following sections for more complete details on registration, policies and procedures.

### Registration

Advance registration for Spring Quarter 1978 begins March 8, with the first scheduled Spring Quarter Academic Fair and continues weekdays through March 17. Registration resumes Wednesday, March 29 and ends Wednesday, April 5, the deadline for fee payments on Spring Quarter studies. Students may register at the following times and dates, or by mail and complete and return the mail-in registration form printed in this brochure.

Note: Only those mail-in forms completely filled out may be processed by the Registrars Office.

### Credit

All of the Spring Quarter part-time courses offer one Evergreen unit (four quarter hours or 2.67 semester hours) unless otherwise noted. Evergreen requires 45 units for graduation, 12 of the last 24 to have been earned while enrolled at Evergreen. The maximum allowable credit for any quarter is 4 Evergreen units.

Special (non-degree) students may earn up to two Evergreen units per quarter. If you wish to register for more than that, you must apply for regular admission through the Office of Admissions. Students who earn one Evergreen unit per course may enroll for an additional unit of credit by signing up for another course, arranging for an individual contract with a faculty member on a part-time basis, or seeking admission to a coordinated studies program or group contract which has part-time openings.

### A Special Note...

**TO THOSE INTERESTED IN COMPLETING A BACHELOR'S DEGREE THROUGH PART-TIME STUDY.**

To those students wishing to undertake part-time studies at Evergreen to begin or complete work on a bachelor's degree. We realize you may need both help and information as you try to arrange a sequence of studies — perhaps unit-by-unit — that will best serve your individual purposes. Those just beginning college have different problems from, say, a person with an A.A. degree from a community college or a person who began undergraduate work several years ago and, for any number of reasons, has interrupted his or her studies. Here are some ways in which we think we can assist you:

### Advising/Planning

If you need information about how things work academically at Evergreen or want current information on curriculum offerings, please call Academic Advising (866-6312). This office can be most helpful to you as you decide your course of study.

### Admissions Counseling

How do you enroll at Evergreen? What kinds of information does the college need to get you enrolled? How does the college operate for the part-time student? These and many other kinds of "policies, procedures and programs" questions can be answered in the Office of Admissions. Just dial 866-6170 and ask for an Admissions Counselor.

### Student Classification

**RESIDENT**

Person who has had a domicile for other than educational purposes in the State of Washington for one year immediately prior to the first day of a quarter; a dependent son, daughter, or spouse of a federal employee residing within the State; or a dependent son, daughter, or spouse of a college employee.

**NON-RESIDENT**

Those who do not fit the "resi-**d**ent" definition. (For specific information, contact the Registrar, 866-6180.)

### Student Categories

**PART-TIME STATUS:**

**PART-TIME DEGREE SEEKING**

Student enrolled for one or two units of credit through continuing academic work leading to a bachelor's degree. Accepted by the Admissions Office as a matriculated student. Receives regular college evaluation.

Persons wishing to immediately begin or continue work toward a bachelor's degree may wish to register as an "Admitted Student," taking one or two units of credit. These students follow regular admissions procedures, which require submission of a full application and transcripts of previous academic work. Those unable to complete the requirements of a full application by the start of a given quarter may still apply as a "Special Student" to secure their part-time place at Evergreen. Credits would then be applied to degree work when regular admission is obtained. The application form for special students is available on page 10. Students wishing to carry more than one unit of Evergreen credit (four credit hours) may register for two one-unit courses (eight credit hours) or may register for one course and a four-credit-hour individual contract in the same area of study. The tuition for eight quarter credit hours (2 Evergreen units) is only $118 per quarter. This combination of course work and an independent study contract enables students to tailor work more closely to their individual needs.

### Career Exploration & Placement

Part-time students needing information about career exploration and career planning (for instance, how would a given set of studies relate to a specific career field already being pursued by the student?), coupled with career identification and eventual placement or advancement, should telephone Evergreen's Career Planning and Placement Office (866-6193) and talk to staff members. They have a lot of information and resources at their fingertips and are happy to help you.

### Internship Possibilities

Many Evergreen students, particularly those at advanced levels, combine regular academic studies with practical work experiences, for which they receive academic credit. To receive credit, students must be enrolled in either a Coordinated or Group or Individual Contracted Studies program. Thus, most internships are pursued by full-time students. To see how you as a part-time student might participate — now or as you pursue your studies later — telephone Evergreen's Office of Cooperative Education (866-6391).

### Costs

The following tables represent a new set of costs for part-time students attending Evergreen.

Program Definitions

Evergreen offers credit for part-time students in four basic ways:

COURSES: Studies focusing on specific subject areas are offered in one Evergreen unit unless otherwise indicated. Nearly all Evergreen courses meet in late afternoon and evening hours and are specifically designed to serve the needs of part-time students.

COORDINATED STUDIES: Team-taught programs which examine major problems, or themes from several disciplines across academic subjects. These programs operate at both beginning and advanced levels. Part-time students may arrange to participate in a portion of a Coordinated Studies program for academic credit.

GROUP CONTRACTS: Group studies involve the intensive examination of more specific subject areas such as economics, arts, marine biology, and sociology to name a few. Groups include from 15-20 students working with a single faculty member. Again, part-time study opportunities exist in some of these programs, with students combining them with a full academic load to earn credit.

INDIVIDUAL CONTRACTS: Where single students work one-to-one with faculty sponsors on a specific academic assignment — normally involves advanced, full-time credits. Part-time students with advanced expertise may be able to negotiate these arrangements by making special arrangements with faculty members.

Information on faculty sponsors for these contracts is available from the Academic Advising Office and students are encouraged to call that office (866-6312).

Degree Requirements

Students must earn a minimum of 45 units of Evergreen credit in order to complete the Bachelor of Arts degree. Students transferring from another college must earn at least 12 Evergreen units before becoming eligible to receive their Evergreen diploma. One Evergreen unit is equivalent to four quarter hours or 2.67 semester hours. Evergreen will accept a maximum of 33 TESC units as transfer credit (equal to 132 quarter hours or 88 semester hours). The maximum amount of credit that can be transferred from two-year colleges is 30 units equal to 90 quarter credits. Transfer students should supply transcripts of all previous work completed in order for the Admissions Office to evaluate transfer credit and supply students with a report after they are admitted.

The flexibility of Evergreen’s study modes adapts to a wide variety of individual needs and situations. These range from classroom instruction to independent study to internships.

Paths To Your Degree

Here are some examples of paths other students have taken to earn their degrees from Evergreen. The actual conditions of any given part-time student may differ markedly from what you choose but serve as illustrations of how you can complete your bachelor of arts degree as a part-time student.

STUDENT A: Employed in medical delivery services; interested in management of health care delivery. Transfer: Transferred to Evergreen from community college, four-year college and school of nursing with 123 quarter hours (33 Evergreen units).

First Year at TESC: Took one course in liberal basic science; earned one unit.

Second Year: Took course in applied psychology, independent study contract in activities of woman’s groups; and independent study in woman’s group and social development; earned one unit.

Third Year: Taking two courses (in literature and religion) which he expects to earn two Evergreen units.

At her present rate, this student will graduate in June, following the footsteps of her children who have later earned their college degrees.

STUDENT B: Full-time state employee; interested in data processing management. Transferred to Evergreen from community college in December of same year. Transferred to Evergreen units) for work in community college, four-year college and through extension programs.

First Year at TESC: Took one course in business reporting which was related to his job; then enrolled for course in sciences; earned two Evergreen units.

Second Year: Enrolled in half-time program especially designed for state workers and registered for the additional independent study contract related to his professional assignments and was able to earn four Evergreen units.

Third Year: Continuing to study in half-time program which should enable him to earn his degree in 11 quarters assuming he retains his two-units-per-quarter pace.

STUDENT C: Full-time employee in educational institution; interested in management. Transferred to Evergreen with eight credit hours (two units) from another college, completed one course in college and in special training program.

First Year at TESC: Enrolled in U.S. history course; earned one Evergreen unit. For past four years, she has completed one or two courses per quarter. Through special arrangements with her employer she is eligible for three quarters to enroll for individual study contracts in addition to her main assignment for full-time credits (four units). If she can continue at present rate of two units per quarter, she will graduate in eight more quarters.

STUDENT D: Working full-time in an educational audio/visual unit; interested in arts. Transferred to Evergreen from major university with 84 credit hours (21 units).

First Year: Enrolled as full-time student and earned four Evergreen units. In past four years he has enrolled part-time or half-time, usually completing regularly scheduled courses with independent study contracts for total of two units per quarter. He is now eligible to earn two units per quarter, he will graduate in March of 1978.

Because Evergreen has only of­fered extensive full-time study programs for two years, the number of persons who have graduated through this opportunity is limited. For additional examples of how students earn their degrees at Evergreen, read the paths described below taken by full-time students.

STUDENT E: (entered as a freshman from a Washington high school); interested in Communications.

First Year: Coordinated Study revolving around sociology, political science, and government.

Second Year: Contracted Studies of News, Media and Government.

Fourth Year: Contracted and individual studies involving print and broadcast news and cinema and photography.

Fourth Year: Television internship and individual studies in broadcast journalism, communications and the electronic process.

Graduated: Now employed as a reporter for metropolitan TV station.

STUDENT F: (Transfer student). Interested in business administration and travel.

First and Second Years: Studied at another college for two quarters. Transferred to Evergreen as a third-quarter freshman, and earned one and coordinated studies program contract contrasting the culture, language, history, and traditions of China with the Western world. Included in this program was involved one-year study in Japan, requiring language skill development and ability to adapt to living with host families and working in Japan business.

Third Year: Group and individual contract work in economics and business.

Fourth Year: Intensive Japanese language study and internship in business.

Graduated: Currently employed as operations manager of an American touring corporation based in Washington State.

Evaluation

At Evergreen students are evaluated in written narrative by their faculty. Their written evaluations are added to their Official Transcripts which are kept in the Registrar's Office. Each student submits credit or block of units, students will have at least three documents: an evaluation of the College Program or contract; an evaluation of their performance by their faculty member; and a statement by the students themselves evaluating what they feel they have learned.

Credit For Prior Learning

There are two sources of possible credit for prior learning outside formal educational institutions: College-Level Examination and External Credit. Both may be used by students to accelerate their progress toward a degree, thereby recognizing credit-worthy but heretofore uncredited achievements in learning.

Students interested in the College-Level Examination Program (CLEP) should contact the Registrar's Office (866-6180). They may be eligible for tests in designated subject areas and earn up to two units of credit per examination. Students should be especially careful to determine their eligibility for CLEP before taking any tests.

Evergreen has established an Office of External Credit to assist older students returning to college who have work or independent study experience which may merit academic credit. External Credit staff will help students document their experiences so they can demonstrate competence and perception for academic credit. Such credit will not be granted for attainments which have already been recognized by awards of credit elsewhere. Summary statements on the external credit policy and procedures are available and students who believe they may have experiences which could generate credit should check with the Registrar’s Office (866-6072). Up to two units of academic credit may be earned by this process.

Support Services

Part-time students may take full advantage of Evergreen’s excellent undergraduate library facilities. In addition to quiet study spaces, the library houses a collection of more than 85,000 hard-bound volumes, another 23,000 books and periodicals in microform, plus reference materials, serials and documents, maps, charts, art prints, audio recordings, models, and rare books. Complete library privileges are extended at no extra charge to all part-time students. The library will find a complete range of supplies and academic books and materials at the College Bookstore, main mall of the Activities Building.

### Housing

**The Evergreen State College**  
Olympia, Washington 98505

**Human Rights Policy**

**Equal Opportunity Policy and Affirmative Action Program**

The Equal Opportunity Policy of The Evergreen State College requires that its faculty, administration, staff, students, and persons who develop programs at the college; and all contractors, individuals and organizations who do business with the college; comply with the letter and spirit of all federal, state, and local equal employment opportunity statutes and regulations.

The college expressly prohibits discrimination against any person on the basis of race, sex, age, religion, national origin, or physical disability (except where physical disability is a bona fide occupational qualification). All decisions on employment and promotion must utilize only valid job-related requirements.

---

The Evergreen State College is committed to an affirmative action program—a goal-oriented program through which it makes specific additional efforts to recruit, hire, train and promote non-whites and women; and to recruit, admit and educate non-white and women students. The affirmative action program is designed to overcome and prevent the effects of systemic institutional discrimination and benign neutrality in employment and educational practices. The college will take affirmative action to solicit bids on goods and service contracts from non-white and women vendors and contractors. The college's Affirmative Action Office has responsibility for preparing the college's affirmative action program, including procedures for reporting and monitoring.
Evergreen’s academic studies for Summer 1978 will highlight six unique programs that provide special opportunities to travel or otherwise enrich one’s knowledge of the natural world, performing arts, cultural traditions or special skills. Featured are:

ALPINE BOTANY, a five-week program (July 24-September 1) that combines lectures, workshops, review labs, and field work in the Puget Sound high country. Students will learn about individual plants and plant communities, and will conduct their own research. Evergreen staff instructing.

THE SECOND ANNUAL INSTITUTE OF WESTERN BLACK CULTURE is a summer-long study (June 19-September 1) of black music in Western America and some areas of the Pacific. Students will trace the evolution of black music from its roots in Africa to its present forms, focusing also on the effects of black music on social patterns. Activities will include many live musical performances and demonstrations. Dr. Rudolph Martin, Jr., coordinator.

MUSEUMS AND MONUMENTS: MEDIEVAL AND RENAISSANCE ART HISTORY will take students abroad through the major cities of France and Italy in the quest for art produced between the early Christian era and 1600. Structured learning activities will be accompanied by free time for individual study pursuits in this venture lasting from June 11-September 8. Dr. Gordon Beck, instructor.

PHOTOGRAPHS is a summer-long study forum (June 19-September 1) for students to explore everything from traditional photographic technique to experimental media and to examine the changing role of photography in society. In the process, each student will produce his/her own portfolio of photographs. Craig Hickman and Ford Gilbreath, instructors.

SUMMER REPERTORY THEATER (June 19-September 1) engages students in the organization and operation of a self-sufficient repertory theater and the production of two comedies. One key aspect of the experience for students will be rotating in the roles of actor, publicity agent, manager, and theater technician. Dr. Andre Tsai, instructor.

PREHISTORIC CIVILIZATIONS will examine what we know and do not know about the past, with a special focus on King Tutankhamen and the ancient civilization of Egypt. This five-week study (June 19-July 21) will use archaeological evidence and techniques of scientific evaluation in arriving at theories and conclusions about prehistoric communities. Dr. Mark Papworth, Instructor.

In addition to these special features at Evergreen during Summer 1978, there will be a full range of Coordinated Studies programs, and Group and Individual Contracts, on both summer-long and shorter-term schedules. The full summer program will be available from the Registrar’s office after March 30.

Contacting Evergreen

Persons with inquiries about regular admission as a full-time student to Evergreen should contact:
Director of Admissions
The Evergreen State College
Olympia, WA 98505
(206) 866-6170.

Persons who have questions about registration for part-time studies, outlined in this brochure, should contact:
Registrar
The Evergreen State College
Olympia, WA 98505
(206) 866-6180.

(Note: Please see sections on Academic Information Days and Registration in this brochure about Spring Quarter registration procedures.)

General information about Evergreen may be obtained by contacting:
Office of College Relations
The Evergreen State College
Olympia, WA 98505
(206) 866-6128
