

Clean Energy Committee Meeting Notes      Tuesday      February 16, 2016      4PM

Members Present: Yesha Maggi and Rhianna Hruska

Solar in the CRC Project

Ken Cook and Michael Joseph

Currently in E.J. Zita's course, which ends Winter Quarter

- solar thermal on the roof of the CRC to heat the CRC pool
- funding would be from the Department of Commerce and the Clean Energy Committee
- find a point person for SLARs
- waiting for outside companies on more professional estimates
- Ecosystems company (Cost Benefit Analysis)
- timeline: ongoing project that started a year ago
- will not be able to apply for Department of Commerce funding until next year
- CEC could fund its portion earlier so that is already guaranteed when the grant to Department of Commerce is written
- Ken Cook will take grant writing this Spring
- CEC funding can be transferred to the next point person for the project
- trying to connect Rich Davis with Ecosystems company so costs can be determined
- determine who the company will be
- bring itemized budget
- will try and apply for the first hearing in Spring Quarter
