Note: **OOAD Final on Wednesday 10 – 11.**

  SOS Alum's Panel (and reception) Thursday 2:30 – 4

Monday:
OOP Read Budd Ch. 14 Input and Output Streams

OOAD * * * Optional – If you want to hand in another version of your EU-Lease specifications in order to obtain feedback before coding, hand in domain model, use case diagram and sequence diagrams by 10:00 am.
* * * Mid-Term – last day to turn in mid term retake.

Project * * * Project Progress Report to faculty
* * * Individual Status Report to faculty
Send email using the following conventions*:*
Subject title *Project name: Progress report* and
Subject title *Project name: Status report*
Send to either Judy or Kate, depending on who is your project faculty – not both.

Tuesday:
Seminar: Eric S. Raymond. ***Cathedral and the Bazaar***.
* * * Writing assignment due at 10:00 – one page max
Choose one of the following
1) Contrast Microsoft's comments (see the url below) about the risks of the open source movement with the Open Source's perspective.
http://www.microsoft.com/presspass/features/2001/may01/05-03csm.asp
2) Write about the optimism of the open source movement and how it affected a failure.
3) Write a paper on the author's conclusions / responses as described in the seminar syllabus.

Lab 2-5: at 2pm, come prepared to ask questions about the Case Study, in particular to articulate your desire for any particular infrastructure to be supplied. After that, time to work on LaunchAuction.

Wednesday:
OOAD **Final Exam**

OOP No Assignment: in lecture, we will do a code walkthrough, and entertain questions about LaunchAuction.

Thursday: 10am LaunchAuction program (with interface) due 10am. Each team of two will have 5 min to demo the program individually to faculty.

2:30 – SOS Alumni Panel. Living, breathing alumni of this program will come and talk to you about how they survived SOS and prospered.
