

Home Page Links

<http://www.about.com/>

categories; signup could be confused with search
organizes a lot of information; key differentiator of subsites run by individual guides
alphabetical index probably isn't that useful

<http://www.drugstore.com/>

tabs, right hand navigation redundant navigation plus nav below fold
login not easily seen

<http://www.cnet.com/>

look at use of advertisement up in corner
search is dominant
category style navigation
ever use a site's search to search the web?

<http://www.ebay.com/>

last updated at bottom of page
smart search instead of advanced search

www.gateway.com

check this out -> give us feedback functionality

<http://www.surveyplanet.com/>

site in transition
