

## Energy Systems – Fall 2004 – week 1 – **Topic survey**

Your name: \_\_\_\_\_

What topics are you especially interested in learning more about?  
 What topics do you already know a fair amount about?

Please rate your INTEREST and your PRIOR KNOWLEDGE from 1 (high) to 3 (low).

For example, if you are very interested in knowing more about the Sun, and know just a little about it already, you would fill in:

	1: very interested	2: some interest	3. little interest		1: know a lot	2: know some	3: know little
Sun	X						X

	1: very interested	2: some interest	3. little interest		1: know a lot	2: know some	3: know little
Fossil fuels							
Electricity							
Magnetism							
Fission							
Fusion							
Hydro							
Wind							
Geothermal							
Solar cells							
Sun							
Fuel cells							
Hydrogen web							
Biodiesel							
Hybrid cars							

If you would like to share additional information about your interests and background on back, please do. Did you work on a nuclear sub or at the Centralia coal-burning plant? Did you do a report in high school on wind power? Do you wonder what's the difference between fission and fusion, between solar cells and fuel cells?
