In Com. 308

We will be working with 16mm check-out at Media Loan (quite a different procedure from general access). This involves production forms that are turned in before your production for all 16mm equipment and a more elaborate check-out procedure (16mm check-outs only occur on Monday, Wednesday and Friday). Please be especially patient and respectful of the folks at Media Loan as they are understaffed and may need a little extra time to fill your 16mm orders. Check out for Project #1 will occur in the workshop.

Finally, we may need to extend some class times through the lunch hour. So please do not schedule work or other meetings during lunch on the days we are in the 16mm workshops.

Your lab fee will cover all film stock, film transfer, editing supplies, and DVCAM stock for transfer.
