

## Portfolio checklist

*Portfolio due to your seminar faculty's office by 5pm Friday, December 9*

*Physics Sub-Portfolio due to Krishna's office (Lab 2 3255) by 5pm Friday, December 9*

Please present to us a neat and organized portfolio of your work. The quality of the contents of your portfolio, as well as the care you take in preparing and presenting it, will reflect your engagement, work, and learning in the program.

### Portfolio

- Cover sheet, including a list of assignments you'd like us to pay particular attention to
- Two copies of your self-evaluation (Your seminar faculty may recommend that you revise and resubmit this, so please don't turn it in to registration until after your conference. If you are staying in the program, you would not submit your self-evaluation to registration until the end of winter quarter.)
- Seminar papers (please cut/paste into one single document, with headers for individual essays, to save paper)
- Seminar paper responses (please cut/paste into one single document, with headers for individual responses, to save paper)
- Critical essays, including rough drafts and faculty feedback
- Notes from lectures, workshop, seminar sessions (optional)
- Week 5 & 9 self-checks (optional)

### Physics Sub-Portfolio

- Physics Exam
- Physics Exam Revisions (optional)
- Relativity Workshops
- Physics Problem Sets
- Physics Figures
