

## Faculty Tech Fair 2012: Introduction to Moodle

Moodle is a popular courseware system available for use by your programs and/or courses. You can find a list of your Moodle sites at any time through <http://my.evergreen.edu/> or see the full list of Moodle sites at <http://moodle.evergreen.edu/>

### Overview of Moodle and Why to Use It

- Student Expectations
- Moodle Use at Evergreen
- A real Evergreen example!

### How Your Students Experience Moodle:

- Finding Your Site
- Getting the Syllabus & Readings
- Posting in Forums

### Building a Course Site For Your Students

- Adding Your Syllabus or Readings
- Adding a Discussion Forum

### Additional Features that Help You Run Things

- Assignments
- a News Forum
- Quickmail
- Settings
- Groups

### \* Reminders: Enrollment, Course Availability & Access \*

*You have an opportunity to work throughout the day with readily available assistance. Join us for assisted work in the open area of the Computer Center! We can help you learn particular features or answer questions while you work on your course site for Fall 2012.*

Thank you for your participation!

Workshop Notes:

Ways that I can get HELP:
