Assignment #4

“The Invented Self”

Using digital imaging tools, create a self portrait. This image may be a complete fabrication. It can be a fictional invention. Consider alternatives backgrounds or locations. Your image may place you in a completely different time, or represent multiple points in time and history.

The details:

- **Produce at least *four* digital inkjet prints**
- **Combine a minimum of two different images into each composition. At least one must be your own photograph created especially for this assignment.**
- **Each final print must be of sound technical quality in terms of color, levels, sharpness, and other aspects of a well crafted print.**
- **Save a digital version of your final images in the class network folder under “the invented self”**
- **Write a one page narrative to accompany the your images. This might be fictional as well. Do not write about your technical process.**

DUE: Friday April 30
