## Readings (watch for additions or changes):

*The Craftsman*, Richard Sennet, 978-0300119091

*Maps of the Imagination: The Writer as Cartographer*, Peter Turchi, 978-1595340412

**and weekly** Additional online readings and handouts

See the program Moodle for weekly seminar & workshop readings.

Special Expenses: You could spend up to \$300/qtr for drawing and studio equipment and materials, depending on your choices of materials and tools, though \$ 150 is a more likely figure. There is a \$65/qtr Studio Fee to cover stone and other materials. Student fees will be used to cover the bus rental expense of field trips and anthology publication.

Travel Component: There will be at least one field trip during the quarter. You should budget \$10-30 per trip for your own food and museum entry fees. Participation in field trips is required.

Insurance: It's a REQUIREMENT that every student using TESC wood, metal and clay studios, as well as going on field trips, have health insurance. Please check to be certain you have student health insurance or are covered under your parent's health insurance policy.
