

Faculty Tech Fair 2013: Introduction to Moodle

Moodle is a popular courseware system available for use by your programs and/or courses. You can find a list of your Moodle sites at any time through <http://my.evergreen.edu/>

Advantages of Using Moodle

- How Evergreen Faculty use Moodle
- Collecting Student Work
- FERPA Privacy and Copyright

Building the Course Outline for Your Students

- Posting the Syllabus & Readings
- Adding a Discussion Forum
- Setting Up Assignments

Additional Features that Help You Run Things

- Quickmail & Announcements
- Groups
- Scheduler

Changing Course Visibility to Publish your Site

You have an opportunity to work throughout the day with readily available assistance. Join us for assisted work in the open area of the Computer Center! We can help you learn particular features or answer questions while you work on your course site for Fall 2013.
